MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with [] Representative

1. The undersigned attended a meeting today with []
Chief, Physical Security Division, OS and []
[] was furnished two copies of an unclassified
and unattributed technical assessment of his company's identification
device. [] agreed this would be only for his company's
internal use and no reference to CIA or the report would be made
outside the company.

2. [] advised [] that the Agency was
interested in the device, however, it would have to be considered as
part of an overall system for controlling access to Agency buildings
and, more importantly, the Agency had no money for developmental
research. [] agreed to furnish a letter to []
setting forth the specifications for the overall system required. The
letter would also note the Agency's interest in the device.

3. [] understood the Agency's lack of funds and
hoped that a large private company might undertake the required
research and his company could present an entire system for the Agency's
consideration.

SIGNED

[]
Assistant Legislative Counsel
